

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more than my fair amount for my telephone calls! I urge you to reject a flat fee proposal that would change how contributions are made presently to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would apparently pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and needed convenience. I don't want to lose these benefits so that big businesses and volume users can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair, please! We pray for you efforts, with thanks.

Sincerely,

Alvin & Yvonne Bytwork
